

# Review of: "Motivational Variables as Predictors of Academic Achievement Among University Students"

Hasan Hariri<sup>1</sup>

<sup>1</sup> Universitas Lampung

**Potential competing interests:** No potential competing interests to declare.

The manuscript is interesting and easy to read (coherently and cohesively written). However, the state of the art (SOTA) should be paid attention to; that is, the author needs to use mostly current references. The references used in the manuscript are mostly out of the last five years.
