ABSTRACT

The ABSTRACT failed all the requirements from general problem, objective, methodology, results, conclusion, and recommendation.

INTRODUCTION

The introduction lacks logical flow and reference !

Authors should learn how to synthesize vital information.

Authors should know how to cite a reference properly.

METHODOLOGY

Components of the study area should include :

1. Country
2. Areas in kilometers
3. Climate
4. Vegetation
5. Relief
6. Altitude
7. Boundaries with other locations
8. Rainfall
9. Temperature
10. 10. Longitude and Latitude

The procedures of the analysis were lacking in the materials and methods.

RESULTS

The results lack logical flow, and the tables must be produced accordingly!

DISCUSSION

The discussion is shallow, particularly for the survey aspect, with a lack of references for comparison and updating the world of knowledge.

1. PLAGIARISM TEST suggested to be run on this manuscript
2. The manuscript is potentially to be contributed to the body of knowledge if the authors can adhere strictly to the raised objections.
3. The manuscript needs ***THOROUGH AND MAJOR CORRECTION*** before it can be considered for publication.
4. ***COMPREHENSIVE AREAS TO BE ADJUSTED HAVE BEEN MARKED IN THE MANUSCRIPT***
