Potential competing interests: No potential competing interests to declare.

- Kindly incorporate a comprehensive review of the latest advancements and cutting-edge research in the field.
- Kindly provide more details on the architecture of the system.
- How user-friendly is the interface of the system, and what measures are taken to ensure that law enforcement personnel can easily adapt to and make the most of the technology?
- This project is deficient in terms of testing methods from the user page, specifically the web page that have been created. The process of developing web pages lacks clarity, with no indication of the language or scripts employed for their construction.
- The paper lacks a thorough comparison of the proposed work with the state-of-the-art techniques.
