

# Review of: "Prevalence of Common Mental Illness and Its Associated Factors among Hawassa City High School Students in Hawassa, Sidama Region, Ethiopia"

Evangelia Moustaka

Potential competing interests: No potential competing interests to declare.

This is a well-written paper with an good explanation in the methodological section and it tried to address an important issue.

In the results, i would like to see more details in the tamples about the severity of mental illnesses.

in discussion, i would like to see future directions about the generalization of the results and new interventions in the community.
