Potential competing interests: No potential competing interests to declare.

- 1- Please add (AD) abbreviation in the title or in the abstract.
- 2- Introduction is very long.
- 3- Data must be reanalyzed.
- 4- More elements used, I think summed up in the supplementary materials.
- 5- In fig. 11, please add a scale bar to each image.
- 6- The study provides valuable insights into the activation of the Nrf2 pathway and its effects on AD hallmarks, so I recommended publishing it.
