Reviewer(s) details

This work is interesting; however, the work needs some **explanation**:

1. Why did you choose to study the effect of this plant in the form of “juice”? Please describe in the background section.
2. Please explain the criteria that are used to determine the seizure activity (in each phase).
3. Please check the citation style.
4. Data analysis is not clear; it needs more explanation.
5. Which of the tests is used to calculate the sample size ($n=4$???)?
6. Which test is used for the comparison between the means of data?
7. Please add a brief description of the procedures to prepare this juice.
