**Potential competing interests:** No potential competing interests to declare.

1. Title: Good
2. Abstract: Weak, the author is recommended to make it more brief.
3. Introduction: Weak, the author should use citations where applicable.
4. Literature Review: Weak

The author has cited old literature such as aptly phrased by the astute commentator (Waltz, 1959:12), etc. (though not very bad); however, new work given as follows is recommended to cite, which will increase the beauty of this work.

<https://journals.sagepub.com/doi/abs/10.1177/1542316620986138> (Conflict Management Section)

<https://www.degruyter.com/document/doi/10.1515/humaff-2022-2033/html> (in the start of literature)

5: Conclusion: Accepted

6: Overall Decision

The paper is accepted subject to minor revision and addition of new citations mentioned above.
