Review of: "Navigating the Landscape of AI in Reading: Unveiling Opportunities and Considerations"

Bharat Bhushan

Potential competing interests: No potential competing interests to declare.

Article is concise and the topic is interesting. It could use some additions and/or restructuring to maintain clarity of the flow of objectives throughout the article. Further, some personal insights and observations may be added, especially to highlight the importance of this topic (why AI and reading). It would be appreciated if the article is suitably augmented and elaborated further.
