Thank you very much for the chance to review this scientific manuscript, but I have some notifications:

- 1- The abstract should contain subtitles of: objectives, materials and methods, results, and conclusion.
- 2- The first four sentences in the introduction part have no references.
- 3- Figures of SEM have no info bar below each figure as extracted from the device.
- 4- Antimicrobial tests should be performed against different types of fissure sealants.
- 5- More figures for tests used in the current study should be added.
