Article is very well written. Concept is also good and unique. Abstract, conclusions and future scopes are good. My only concern is to add case study and comparative analysis. Also, add the following relevant references in your study.

[Optimal Ordering for Deteriorating Items of Fixed-Life with Quadratic Demand and Two-Level Trade Credit: Optimal Ordering... Two-Level Trade Credits](#)

[Retailer's optimal policies for price-credit dependent trapezoidal demand under two-level trade credit](#)

[Optimal down-stream credit period and replenishment time for deteriorating inventory in a supply chain](#)
