Thank you for choosing me to review this work. I suggest the following minor changes in the article:

1. Table source is missing in the article, and which software is used for results is also missing.
2. Results should be supported by the existing literature.
3. Limitations and Future Research are not up to standard.
4. Recent citations are missing, and more evidence and supportive studies can be added to the discussion.
5. Overall, the paper is good.

Best Regards,

Dr. Rameez
