Potential competing interests: No potential competing interests to declare.

This is a well written paper, it is thorough, and the aim of the study was clearly stated and addressed.

There was a part written " Participants responded anonymously, it would be nice if it was clearly stated how was this done, just expand on this to give more clarity.

Table 3: Please move the descriptive text just below the table, this will help the reader to clearly see which numbers you are referring to in your text.
