Thank you for the opportunity to review the manuscript.

The manuscript was well-written overall. However, the following needs to be done for the purpose to improve the standard:

1. Provide information about study participants (inclusion and exclusion criteria).
2. Include the permission ID and the name of the Institutional Review Board or Ethics Committee.
3. The questionnaire was updated for the Pakistani setting after being adapted from Bolze et al. Please specify the questionnaire's copyright permission ID and whether or not the amended version was validated.
4. Only include the main conclusions of your study and your suggestions for additional research in the conclusion section.
