

# Review of: "Use of the experimental designs as an approach to optimize the inhibition efficiency of a Pyridazine derivative against corrosion of steel in an acidic medium"

Bhuvaneshwari Durvas Seshian

Potential competing interests: No potential competing interests to declare.

All table and figure captions can be rewritten as they should be self-explanatory by mentioning the inhibitor, temperature, immersion time, inhibition efficiency etc...

A table containing comparative study can be presented.

Compare and conclude both experimental and experimental design approach results obtained.
