P-Chloro-o-toluidine

National Cancer Institute

Source

National Cancer Institute. *p-Chloro-o-toluidine*. NCI Thesaurus. Code C44431.

A yellowish to pinkish colored, synthetic leaflet material. p-Chloro-o-toluidine is used in industry in the manufacture of azo dyes and is used in the production of the pesticide chlordimeform. This substance is a possible mutagen and is reasonably anticipated to be a human carcinogen that may be associated with an increased risk of bladder cancer. (NCI05)
