Potential competing interests: The author(s) declared that no potential competing interests exist.

The type of article is not stated, please specify whether it is a Narrative review. The methodological process of article selection is not described. A Table of the included studies may be useful to make the presentation of results more clear. Please include also the limitations of the study/review. Among the health/quality of life parameters analyzed by the included studies, an evaluation of oral health variables should be included (Rupel et al, 2021; Frese et al, 2020; Sekundo et al, 2020; Beker et al, 2019; Kaufman et al, 2014).
