

Review of: "From Tech Hub to Banking Failure: Exploring the Implications of CBDCs on the Destiny of Silicon Valley Bank"

Fadoua Khanboubi

Potential competing interests: No potential competing interests to declare.

- Positive points: structured and well-written article. fluent English and understandable style
- points to improve: it lacks a concrete analysis of the approach proposed in the article. Concretely, how CBDCs can provide real-time monitoring and oversight, which could help to prevent bank failures? Also, examples of this theory are welcome.
