Dear Karthik Rao

I appreciate your attention to the critical issue of the role of the loss function in problems solved by artificial neural networks (ANNs). However, what you have provided in the article is already well known to ANNs specialists. Besides, you have not added any specific insights about this issue in cancer research but some examples. Furthermore, some information has been repeated over and over throughout the article, while it could be more concise and precise.

Yours sincerely

Zohreh Dehghani-Bidgoli
