Authors have presented 'Investigations on Input Impedance and Radiation Pattern of a UWB Antenna for Microwave Imaging'.

Based on the review, the following comments need to be addressed to make the article acceptable:

- (1) Equation numbering is missing and needs to be mentioned.
- (2) Put the images of antenna testing and measurement.
- (3) The authors can add a performance comparison table with recent references.
- (4) Mention a few more applications in the conclusion section.
