Potential competing interests: No potential competing interests to declare.

Introduction

- Needs to be longer and comprise relevant topics (i.e., methods of surgery, indications, etc)

Methods

- There are several mistyped words
- Please elaborate on laboratory tests and blood type (i.e., is Rh included?)

Results

- Please add a table and analysis results in the table
- Numbers should be mentioned in mean (standard deviation) or median (range)
- The terms bivariate or univariate analysis should not be used interchangeably

Discussion

- There are several mistyped words
- Please elaborate more on the mechanisms of how certain conditions affect the outcome (i.e., instead of only mentioning that other studies support that anemia is associated with poorer short-term outcomes, mention how anemia pathophysiologically affects the outcome)

Conclusion

- Should refrain from writing things that are not mentioned in the previous sections (i.e., health economy -> this should be in the introduction)
- There are several mistyped words
