Carcinoma of the Lacrimal Gland Pathologic TNM Finding v7

National Cancer Institute

Source

National Cancer Institute. *Carcinoma of the Lacrimal Gland Pathologic TNM Finding v7*.
NCI Thesaurus. Code C88784.

A pathologic finding about one or more characteristics of carcinoma of the lacrimal gland, following the rules of the TNM AJCC v7 classification system. Complete resection of the mass is indicated. The specimen should be thoroughly sampled for evaluation of histologic type and grade of tumor, size, possible presence of a preexisting pleomorphic adenoma, and surgical margins (including the periosteum). (from AJCC 7th Ed.)
