

Review of: "Land Size Class Wise Growth of Crop Diversification Index: A Case Study From Murshidabad District of West Bengal"

Talal Darwish

Potential competing interests: No potential competing interests to declare.

I have no more comments on the current version of the paper. The authors considered some of our suggestions and left others without response. This is probably due to limited secondary data.

Hopefully, in the future, authors can update the statistics, advance the analysis, and widen it to cover more of the socio-economic aspects and consequences of crop diversification.
