Referee reviews:

1) Key words should be in the MESH index. No results for "Mechanism" in Main Heading Terms.

2) Figure order is wrong; It should be corrected as "1,2,3". For example, on page 3, there is figure 1 in the text. But Figure 1 is on page 9. Figure 2 appears as the first figure.

3) On page 5, "dry mouth" should be written instead of "sore mouth".

4) On page 9, in the Figure 1, the subtitle must begin with a "capital letter".

5) On page 9, in Table 2, the words in the lines should start with "capital letters".

6) On page 9, the word "severer" in the conclusion is incorrect.

7) On page 9, is the "s" in "Limitation and strengths" lowercase or no? Are the other titles lowercase? All headings should be written the same.
