Thank you for the informative script.

1. The abstract needs to have at least a sentence on each of the following: background, methodology, results, and conclusion.
2. Put references in your introduction/background.
3. Include your objectives at the end of the introduction and the relevance for the review.
4. Describe the procedure/methods for the review as well as the tool used to do the review.
5. Discuss your results with references.
6. The conclusion is your deductions from your results or the whole process of the review.
