I am very pleased to have been given the opportunity to read and review this work. It can be said that it is important to work on understanding discipline problems in schools. Legal resources regarding disciplinary problems in schools can increase the awareness level of educators about disciplinary problems and solutions to disciplinary problems.

In order to increase the quality of the study, international legal regulations can be mentioned as well as national legal regulations regarding students' security rights and school safety. In addition, although it is stated that nine themes were created in the study, their names are not seen in the text. Making explanations and improvements on these issues can positively increase the quality of the study.
