# Cushing syndrome due to ectopic ACTH secretion

INSERM

## Source

*INSERM. (1999). Orphanet: an online rare disease and orphan drug data base. Cushing syndrome due to ectopic ACTH secretion. ORPHA:99889*

Cushing syndrome due to ectopic (adrenocorticotrophic hormone) ACTH secretion (EAS) is a form of ACTH-dependent Cushing syndrome (see this term) caused by excess secretion of ACTH by a benign or, more often, malignant non-pituitary tumor.
