**Potential competing interests:** No potential competing interests to declare.

1. For body of knowledge we need a grand theory that can cover the entire topic in the research title and be included in the Literature Review section
2. It is better if you cite more references to support the hypothesis in this study which states that there is a positive role by looking at the similarities and differences of this study with others that have the same topic
3. Convey the phenomenon more clearly for the concept of The Role of Women's Business Performance by using data from trusted sources or official institutions not only from literature reviews so that it can add confidence to this research
4. Conclusion, no need to go into too much detail, just answer the hypothesis without any statistics
5. Recommendations, written using sequential numbers so that they are simpler and easier to understand.
