GAIA Level 1 Neonatal Invasive Bloodstream Infection

National Cancer Institute

Source

National Cancer Institute. *GAIA Level 1 Neonatal Invasive Bloodstream Infection*. NCI Thesaurus. Code C127984.

GAIA Level 1 Neonatal Invasive Bloodstream Infection is defined by two criteria: first, identification of a recognized pathogen from a normally sterile site using a validated method; second, if a normally non-pathogenic organism is isolated from blood cultures the following two requirements must be met: a) The cultures must be obtained from two different sites OR taken at two different times; b) One or more of the level 2 criteria must be present.
