Potential competing interests: No potential competing interests to declare.

- lacks clarity of the final product if it is a framework or model, guideline
- may include layman's terms for non technical readers(e.g thematic views)
- lacks clarity of the whole picture regarding the proposed steps (order and relationship)
- lacks clarity of the procedures stated (if interchangeable)
- some of the best practices mentioned was not incorporated in the proposed research output (e.g "Routine evaluation and review" was not in the proposed steps)
- lacks pattern that should be included in the discussion of every step (components/structure e.g considerations, best practices, challenges, strategies)
