Potential competing interests: No potential competing interests to declare.

The current research, "Enhancing soil stabilization in soft soils through the addition of sand to soil-cement piles," lacks novelty or has not clearly stated the novelty of this research. There are several grammatical errors in this paper which need to be addressed. The figures are blurry and hence need to be changed. There are further studies or citations that can be incorporated, since the present paper lacks the findings that are needed to provide the paper with a better comprehensive study.
