# Technetium Tc 94m Sestamibi

National Cancer Institute

## Source

*National Cancer Institute. Technetium Tc 94m Sestamibi. NCI Thesaurus. Code C48423.*

A radioconjugate consisting of sestamibi labeled with the positron-emitting isotope Tc 94m. Sestamibi is a synthetic molecule of the isonitrile family that diffuses through cell membranes and may preferentially accumulate within mitochondria. Technetium Tc 94m sestamibi may be used in tumor-imaging studies utilizing positron emission tomography (PET). (NCI05)
