Article titled: Role of Mango in Immune System

It was reviewed and judged. In this review article, researchers have investigated mango compounds and their effects on the immune system. The article is generally very interesting and contains valuable information. Therefore, by fixing some minor points, it can be accepted for printing. It is necessary to pay attention to the following points:

1. It is necessary to review all parts of the article in terms of writing and grammar so that it is understandable for the readers
2. Reference number 1 has been used a lot in different parts. If possible, other references should also be used to introduce generalities and different parts of the immune system
3. If possible, summarize all the different parts of the article in one figure. The existence of the figure can help to understand the contents more and increase the visibility of the article significantly
