Potential competing interests: No potential competing interests to declare.

- 1- The Review Methodology should be clearly announced. Moreover, the date of the mini-review should be fixed.
- 2- According to POWO (Key Botanical Garden), Adoxaceae is a heterotypic synonym of *Viburnaceae* Raf.
- 3- The should be aware of the focus of the review: It should be *V. opulus* instead of the genus *Viburnum*.
