

Review of: "On the Bell Experiment and Quantum Foundation"

Hongyang Ma

Potential competing interests: No potential competing interests to declare.

1. The abstract was too brief and did not reflect the specific experimental process.
2. Suggest that some parts be explained in more detail with pictures and text.
3. Write a brief description of the future outlook in the conclusion.
4. Suggest slight modifications to the overall layout.
5. Please provide a more detailed explanation of some formulas.
6. Please provide a detailed description of the proof process section.
