## Title:

Better to rewrite the title as: The Influence of Socio-Economic Conditions of Parents on the Personality of Christian Teachers in Tambaksari District, Surabaya

## Abstract:

The abstract is good, but still the following important concepts should be added

- Research Design
- Sample and sampling techniques
- Specific data analysis techniques
- Conclusion and recommendations in short
- Key words

## Introduction:

-In Introduction researchers need to clearly discuss teachers personality and its determinant factors. Then discuss the overview of studies conducted on the role of Socio-Economic Conditions and Parental Background on the Personality Competence of Christian Teachers by reviewing literatures. In addition, concentrate on the context where the research was conducted. Later on show the gap and why you are interested to study on this topic and end up with the hypothesis

-You need to also add operational definitions of Socio-Economic Conditions, Parental Background and Personality Competence

-The introduction is full of unrelated concepts such as Acts of violence, Parenting (authoritarian, authoritative,...), life style, stress, ..How these are related to this work?

## Methodology:

Methodology lacks some important concepts, such as;

- Research design,
- Study area
- Instrument to collect data and its validity issues
- Procedures
- Data analysis methods

### **Result and discussions**

- Data collection technique, data analysis techniques and literature review should not be under result and discussions
- Personality inventory????
