

Review of: "COVID-19 or Russia-Ukraine conflict: which is informative in defining the dynamic relationship between Bitcoin and major energy commodities?"

Faisal Bukhari

Potential competing interests: No potential competing interests to declare.

The research is very interesting and relevant. However, comments are as follow.

1. Paper write up needs little improvement, like Introduction heading repeated twice.
2. I think hypothesis development needs more clarity and supported by literature.
3. I think robustness testing also be included to check the reliability of results.
4. Conclusion should be specific instead of generic.
