Dear Author, With due regards, I am sending you the review report of manuscript entitled "Designing and modeling microwave photonic spectral filters based on optical microcombs", written by David J. Moss. I recommend this manuscript with minor correction for the publication in this reputed Journal. The detailed comment is as follows: 1. The author is advised to mention the references in a systematic format. For example: References 89 (J. Lightwave Technology, vol. 38, no. 7, 1722-1727, 2020.), 93 (Nanophotonic 12 (5): 795–817 (2023)) etc. 2. The author is advised to mention the DOI of all references. 3. The author are advised to mention the latest references in the introduction section.
