Dear Editor,

Thank you for choosing me as reviewer.

The issue of the study is quite relevant. The way of description is also fine. though some changes seems expected for the final publication.

Review:

1. Conceptual Background and Central Research Question is required to more pronounced
2. Study area should be clearly demarcated its proper mapping and rationale for selecting the study area to be clearly stated
3. Proper citation is important for categorization of crimes/offences and news paper references
4. Database an time frame is to be given with due care and explanations
5. More attention to be given for the sentence formation.

with Best Regards

Dr. Tapas Mistri
