Potential competing interests: No potential competing interests to declare.

This paper provides some interesting findings. I think it may be improved from these aspects.

1 Section 3 and Section 4 literature reviews could be grouped into Section 1 for the research introduction.

2) This paper could provide some data analysis in Section 4 as appropriate. If space is limited, it may be expanded by charts.

3) This paper may further elaborate on the research objectives and highlight the innovation points. These could be supplemented and adjusted appropriately in Section 1.
