Potential competing interests: No potential competing interests to declare.

... The LC induced ... LC is mentioned in the abstract; could you write the full meaning?

... ASCVD, could you write the full meaning? Since it is the first time in the manuscript

... sclerosis (MS) “.” is needed

... Porphyromonas gingivalis has been implicated in the generation of ACPAbs in RA patients, suggesting a direct biological intersection between periodontitis and RA...

Those lines need to be improved.

... Periodontitis is also linked... this paragraph is long, and CO is mentioned several times. Could you improve this information?

It is not clear to me about the numbers in figures 1 and 2.

Could you show Fig 1 and 2 in a different way? Or explain why the authors consider those figures as ... an incomplete diagrammatic... in the title?
