The article "Ecological diversity, structure, and exploitation of rattan stands according to a disturbance gradient around the Nkoltang forest, Estuary province of Gabon" seems acceptable. However, it is recommended to improve the following:

1. Abstract: According to the APA style manual, an abstract is a single paragraph and should be between 150 to 250 words; Keywords: 5 keywords; The structure of the abstract should be: Introduction, Methods, Results, Discussion, Conclusion.
2. The introduction: Establish the importance of your research, define the terminology that appears in the title/keywords, cite previous and/or current research and contributions, locate a gap in the research, i.e., your contribution, describe the problem you are going to solve with your research, present a prediction, that is, your hypothesis, tell what the purpose of your research is.
