

# Review of: "A Cross-sectional Survey of Public and Private Cancer Care in Nigeria and Romania"

Severine Cucchiaro

**Potential competing interests:** No potential competing interests to declare.

Thank you for this article which I found interesting to read.

The weaknesses of the study are the authors' brief explanations of some of the information provided. It would be desirable to improve these.

It would be desirable also to answer these few questions:

How was patient satisfaction measured?

Why did the authors choose and compare these centres?

What data was collected in the questionnaire?
