Potential competing interests: No potential competing interests to declare.

Try to put the introduction and literature review in your own words. Avoid plagiarism and let us know the current trends and what you want to achieve with this paper.

Try to improve on your abstract. How effective are the *watershed-based interventions in Ethiopia*? Refer to your figures, tables, and plates before the figures, tables, and plates.

Improve on your analysis, results, and discussion. The discussion must be done in line with the literature and objectives of this study.

What are your findings and the novelty of *'Revitalizing Key Conditions and Integrated Watershed Management to Mitigate Land Degradation and Sustain Water Availability for Agriculture in Semi-Arid Regions: A Case Study of Ethiopia'*

Check through, cite, and list all your references properly. More references need to be cited. Recent references between 2021-2024 will be of advantage.

No recommendations. The conclusion should not be mixed up with discussions. Also, provide viable recommendations for further studies on this topic. Let your conclusions reveal the major findings. Let us know the contribution to knowledge.

Let your manuscript be in clear and concise English. Proofread and remove all grammatical errors. Adhere strictly to Qeios guidelines.
