

Review of: "Effect of Organisational Factors on Intrapreneurial Behaviour of Public University Academicians in Malaysia"

Zdenek Mikolas

Potential competing interests: No potential competing interests to declare.

The article opens with a very current and inspiring topic. The presented findings can enrich the work of universities not only in Malaysia (with regard to trends in the 21st century). The methodology, hypotheses, and commentary on the results of research are at a very good level. I appreciate that the authors also described the limits of their research. I highly recommend continuing research, not only in Malaysia, but also in other countries.
