

Review of: "In-Vitro Antibacterial Activity of some Ganoderma Species: A Review"

Leeba Balan

Potential competing interests: No potential competing interests to declare.

The authors have written the paper in a systematic manner.

Corrections:

Grammar corrections have to be done in the paper.

The authors have mentioned the different types of Ganoderma sp. available, but they have given little data on each and have kindly asked to elaborate on the medicinal aspects.

How Ganoderma is different from other mushroom varieties and mention the medicinal prospects with reference.
