Thank you for giving me the privilege to review this manuscript.

Topic of the manuscript: Factors Affecting Economic Crisis in Ethiopia: A Literature Review

Observations :

1. The introduction needs to be expanded by including the historical perspective of the economic crisis in the country, previous policies implemented, and how those policies impacted the economy either positively or negatively.
2. The gap the study wants to fill is not well specified. The writer needs to spell this out properly.
3. The writer needs to give deep insight into those problems listed by providing detailed information about Macroeconomic factors and structural factors so as to make the study impactful. Thanks
