Potential competing interests: No potential competing interests to declare.

Please expand the acronym "CRISPR-Cas" in the abstract.

The article lacks a clear structure and does not incorporate methods for article search.

The introduction should explicitly mention the aim of the article.

Please specify the type of review conducted in the manuscript.

This article requires revision by a native English speaker as the language used is difficult to understand. Additionally, if AI assistance was utilized in writing, please disclose this information.

Extensive editing is required before acceptance for publication.
