

# Review of: "Financial Autonomy: Panacea for Improved Service Delivery in Imo State Local Government System"

R.A. Abdullah

Potential competing interests: No potential competing interests to declare.

Through my review of the research after the amendment, I found only some minor amendments, represented by the deletion of a paragraph in the Introduction and the addition of a paragraph in its place, the addition of a sentence at the end of the Restrictions section, as well as the addition of a sentence to the Methodology section. Therefore, I emphasize my previous notes about the research, and the researcher should be guided by the previously mentioned notes and make major amendments to it. With appreciation.
