# Extramural Research Facilities Construction Project

National Cancer Institute

## Source

National Cancer Institute. *Extramural Research Facilities Construction Project*. NCI Thesaurus. Code C20017.

The principal objective of this program is to facilitate and enhance the conduct of PHS-supported biomedical and behavioral research by supporting the costs of designing and constructing non-Federal basic and clinical research facilities to meet the biomedical or behavioral research, research training, or research support needs of an institution or a research area at an institution. (from NIH Guide)
