Review of: "Adoption of Technology Acceptance and Interfaces for Academic Information System Applications"

Tusyanah Tusyanah[1]

1 Universitas Negeri Semarang

Hello. Congratulations on your manuscript. Here are the points you need to revise:

1. Revise the hypotheses: Original: "Good interface design can encourage acceptance of academic information system technology."

   Revised: *"Interface design **has a positive and significant effect on** the acceptance of academic system technology."*

2. Please create and include the research model outlining the relationships between variables

3. Revise the citation; Original: "A good UI is the key to making an academic information system an effective tool in the academic environment (Walling, E., & Vaneeckhaute, 2020)."

   Revised: *"A good UI is crucial for the effectiveness of an academic information system(Walling & Vaneeckhaute, 2020)."*

4. Proofread the sentences: Original: *"To obtain data for this study, we used a research questionnaire which we shared via online and offline links".* **Is there any offline link?***Revised: "To collect data for this study, we utilized a research questionnaire distributed through both online and offline channels.*

   Please ensure to address these revisions in the manuscript for clarity and accuracy.

Thanks. Good luck.
